

## **Information Security and IT Risk Management**

### **ISM 6328.020/350**

#### **Course Information**

Course Title: Information Security (INFOSEC) and IT Risk Management

Course Subject # / Section:

- ISM 6328 / 020
- ISM 6328 / 350

Course Semester: Fall 2023

Course Credit Hours: 3

Course Duration: 8 Weeks (10/16/23-12/7/23)

Course Occurrence: Weekly (Asynchronous)

Course Meeting Times: Asynchronous (Online)

Course Meeting Location: Off Campus (Online)

#### **Instructor Information**

Name: Dr. Marcus L. Green

Office: CIS 2070-A

Weekly Office Hours: Virtual via Microsoft Teams; Mondays, 12 - 1 pm EST

Office Hours (virtual): By appointment only; meetings will occur using Microsoft Teams

Phone: (o) 813-974-6754

E-mail: [mlg5@usf.edu](mailto:mlg5@usf.edu)

---

#### **Course Description**

Introduction of frameworks to assess IT risk and implement IT general controls; development of technical skills to secure computer networks.

#### **Course Material, Literature, and Software**

##### **Textbooks (All Required)**

*Fundamentals of Information Systems Security + Cloud Labs*: Fourth Edition, ISBN: 9781284251333 (paperback), ISBN: 9781284244571 (eBook), Author: David Kim, Michael G. Solomon

This book is the main textbook we will utilize throughout the course. The book contains labs that must be completed for the course. The book must be purchased before the first day of our course. This is non-negotiable. The correct book is the one that includes the cloud labs. The labs allow you to gain basic, fundamental, and cybersecurity practical experience. Each week you will be required to complete between a lab exercise, for a total of 7 labs total. The book can be purchased through the USF book store or directly from the publisher. It is your responsibility to purchase the book by any means necessary. If you would like to take the publisher route, I have worked directly with the publisher to

lower the cost of the book. Use the following link to access this option, the book is already discounted and reflects the lower price:

Per the Publisher: "Here's a link students can use to purchase their materials; this link will put the eBook and Lab Bundle in their shopping cart with the discount already applied to their order":

<https://checkout.jblearning.com/cart/Default.aspx?bc=24457-1&ref=jblearning&coupon=ISM6328USF>

97 Things Every Information Security Professional Should Know: Collective Wisdom from the Experts: Edition 1st, ISBN: 9781098101398, Author: Christina Morillo, Publisher: O'Reilly Media

### **Course Context (additional description)**

Cyber-attacks cost the global economy \$445 billion annually and affect a variety of domains such as healthcare, government, academia, and industry. Recent years have seen an unfortunate and disruptive growth in the number of cyber-attacks. To stem this grand societal issue, there are increasing calls for well-trained cybersecurity professionals, with an estimated 3.5 million cybersecurity job openings by 2021. Despite this high demand, there is currently a severe shortage of qualified candidates. Specifically, individuals lack technical skills such as planning/implementing/upgrading/monitoring emerging technologies, incident response, security controls, and basic systems administration. Moreover, candidates often lack the non-technical skills of researching and reading new technologies, regulatory compliance, internal security policies, standards, and procedures. This hands-on, introductory, graduate-level course, backwards engineered with DHS/NSA key knowledge unit requirements for maintaining the Center for Academic Excellence for Cyber Defense (CAE-CD) at USF, aims to alleviate these concerns and help students be prepared to become competitive candidates in the information security industry.

### **Prerequisite Requirements**

Technical Requirements: Full-time access to a personal computer (Mac or PC is fine). We also assume that you have a technical background before entering this course (as per the requirements for the MS in Cybersecurity program). This includes basic systems administration, shell scripting, and knowledge about computer networking. Students without these background areas are strongly recommended to first gain some experience in these areas, then take this course.

### **Course Workload Expectations**

Any university course requires a large amount of work outside of lecture. This course is structured around 8 weeks. This is a fast paced course! We assume you will allocate an average of at least 8 hours per week for study, quiz, and assignment work. If you procrastinate, you may find that you do not have enough time, or that a technology problem is preventing you from completing your submissions on time. Note that technology problems (such as computer or network failures) will not be accepted as acceptable excuses.

## Learning Objectives

Upon completion of the course students will demonstrate the ability to:

1. Demonstrate an understanding of security concerns and issues in organizations
2. Learn how to identify and characterize assets relevant to cyber security
3. Have the ability to identify major categories of information security threats
4. Have the ability to apply various kinds of controls to counter common threats
5. Learn about important compliance requirements related to cybersecurity
6. Have the ability to provide solutions to mitigate IT risks.

## Course Grading and Assignment Policies

### Grading Scale

Letter grades will be awarded according to the percentage scale below.

Total%	Grade	Total%	Grade	Total%	Grade	Total%	Grade
≥ 97	A+ (max 10% of class)*	≥ 87	B+	≥ 77	C+	≥ 67	D+
≥ 94	A	≥ 84	B	≥ 74	C	≥ 64	D
≥ 90	A-	≥ 80	B-	≥ 70	C-	≤ 60	F

### Grade Categories and Weights

Four deliverables make up the total grade: quizzes, assignments, labs, and the final project. The percentage breakdown for each is provided in the table below. The following sub-sections describe each component.

Deliverable	Point Value per Deliverable	Deliverable Amount	Max Points for Deliverable	Grade Percentage
Quizzes	25	3	75	8%
Discussion Assignments	50	5	250	25%
Discussion Assignments Responses	25	5	125	13%
Labs	50	7	350	35%
Final Project	200	1	200	20%
Total	n/a	n/a	1000	100%

## Course Assignments Details/Requirements:

### Weekly Modules:

This course contains eight Canvas modules. Every module has specific information security themes and concepts. The modules contain lectures, presentations, and readings that explain the weekly themes and concepts. There are graded assessments in the form of assignments, quizzes, and labs for each module that validate specific learning objectives have been met.

### Quizzes:

There are 3 quizzes throughout the course. These items will test your retention of the fundamental concepts of information security. There will normally be a quiz every week that covers the chapters in our textbook (*Fundamentals of Information Systems Security + Cloud Labs*). The quizzes will normally open on Monday morning and close Sunday night. Each quiz is worth 25 points.

### Discussion Assignments:

Discussion assignments are centered on students using critical thinking skills. I want to know not just what you think about a topic, but more importantly, I want to know the reasoning that drives the thinking. The information security topics will vary but will mostly be focused on weekly topics. All assignments will be at least 500 words, submitted in APA format, and have proper citations and references. The assignments will normally open on Monday at 8:00 am and due the following Thursday night. Coupled with the discussion post directive is the requirement to provide feedback on another student's post; this second requirement is normally due Sunday at 11:59 pm of that week.

### Labs:

You must complete computer lab work in this course. The labs are available with the *Fundamentals of Information Systems Security + Cloud Labs* textbook. The book is required. This means you have to purchase the book. The book must be purchased before the first day of our course. This is non-negotiable. The correct book is the one that includes the cloud labs. The labs allow you to gain basic, fundamental, cybersecurity practical experience. Most weeks you will be required to complete a lab exercise, for a total of 7 labs total. Normally Sections 1 and 2 are required to be completed for each lab. The deliverable is a lab report in PDF format. The lab report is submitted in Canvas.

### Final Project:

The Final Project will be a 5-page paper detailing an information security incident that has occurred within the last three years. Using concepts learned in this course, the paper must outline why the incident happened, how the incident could have been avoided, and what counter measures could be implemented to remediate similar future incidents. Also include insights from the required book "*97 Things Every Information Security Professional Should Know: Collective Wisdom from the Experts*." The paper must be in APA format and contain proper references.

## Course Schedule

\*Students will complete **all** chapter readings, labs, and assessments using “Fundamentals of Information Systems Security + Cloud Labs: Fourth Edition, ISBN: 9781284251333 (paperback), ISBN: 9781284244571 (eBook), Author: David Kim, Michael G. Solomon”

Module/Week	Topic	Lecture/Literature Review	Required Taks
1	Information Systems Security and Emerging Technologies	Lecture Video, Chapters 1-2, PowerPoint Presentation Begin Reading: <i>97 Things Every Information Security Professional Should Know: Collective Wisdom from the Experts</i>	First-Day Attendance Discussion Lab 1 Discussion Assignment Quiz
2	Risks, Threats, And Vulnerabilities	Lecture Video, Chapter 3, PowerPoint Presentation	Lab 2 Quiz
3	Business Drivers, Networks, and Telecommunications	Lecture Video, Chapters 4-5, PowerPoint Presentation	Lab 3 Discussion Assignment
4	Access Controls and Cryptography	Lecture Video, Chapters 6-7, PowerPoint Presentation	Lab 4 Discussion Assignment Mid-Term Course Survey
5	Malicious Software and Attack Vectors	Lecture Video, Chapter 8, PowerPoint Presentation	Lab 5 Quiz
6	Security Operations, Auditing, Testing, and Monitoring	Lecture Video, Chapters 9-10, PowerPoint Presentation	Lab 6 Discussion Assignment
7	Contingency Planning and Digital Forensics	Lecture Video, Chapters 11-12, PowerPoint Presentation	Lab 7 Discussion Assignment
8	Information Security Standards, Certifications, and Laws	Lecture Video, Chapters 13-15, PowerPoint Presentation Complete Book: <i>97 Things Every Information Security Professional Should Know: Collective Wisdom from the Experts</i>	Final Project

\*\*In the interests of the class, deviations may be made in the coverage of topics as outlined in the tentative course calendar. However, to help plan your calendars for the rest of the semester, assessment and deadline dates will be non-negotiable after the first day of class. Some deadlines may be clubbed together to accommodate schedules.

\*\*\* All deliverables are due at the end of day (11:59 PM) on the submission date (usually Sunday).

### Attendance Discussion Assignment

To meet USF's First Day Attendance requirement a discussion assignment has been set up in Canvas. Please complete the quiz before **Thursday, October 19, 2023 at 11:59 PM**. If you do not complete the discussion assignment you will be administratively dropped from our course.

### Late Work Policy

Assignments turned in late to Canvas are assessed a penalty of a ten percent deduction for every 24 hours of being late, for up to a maximum of fifty percent deduction. For example, if a student turns in an assignment less than 24 hours late, a 10 percent point penalty is assessed; and if a student turns in an assignment between 48-72 hours late, a 30 percent penalty is assessed. The latest an assignment is will be accepted is 7 days after the due date.

The said penalties will be in addition to normal deductions of points for failure to do the assignment correctly. Times of assignment uploads are recorded by Canvas and reported to the professor.

Should you wish to discuss the grading and points awarded for any assignment your professor is happy to accommodate you. However, you must do so within two weeks of the graded assignment being returned to you via Canvas. If you do not discuss such with your professor within the two-week window the professor will assume you are satisfied with the grading of the assignment and will consider the points awarded to be final. After the two-week window no discussions of points awarded on an assignment will be entertained.

### **Extra Credit Policy**

There are no opportunities for extra credit in this course. Students' focus should be on the primary work in the course.

### **Medical Issues**

There are certainly cases in which a student legitimately cannot complete course assignments for valid medical reasons. To be excused from course work in such cases requires students to furnish a standard note from a health care professional stating care is being sought for an ailment or condition which can impede a student's ability to complete course work. Without such a note an excuse from course work cannot be granted.

### **Grades of "Incomplete"**

An Incomplete grade ("I") is exceptional and granted at the instructor's discretion only when students are unable to complete course requirements due to illness or other circumstances beyond their control. The course instructor and student must complete and sign the "I" Grade Contract Form that describes the work to be completed, the date it is due, and the grade the student would earn factoring in a zero for all incomplete assignments. The due date can be negotiated and extended by student/instructor as long as it does not exceed two semesters for undergraduate courses and one semester for graduate courses from the original date grades were due for that course. An "I" grade not cleared within the two semesters for undergraduate courses and one semester for graduate courses (including summer semester) will revert to the grade noted on the contract.

## **Academic Integrity and Academic Misconduct**

Academic integrity is the foundation of the University of South Florida System's commitment to the academic honesty and personal integrity of its university community. Academic integrity is grounded in certain fundamental values, which include honesty, respect, and fairness. Broadly defined, academic honesty is the completion of all

academic endeavors and claims of scholarly knowledge as representative of one's own efforts. The final decision on an academic integrity violation and related academic sanction at any USF System institution shall affect and be applied to the academic status of the student throughout the USF System, unless otherwise determined by the independently accredited institution. The process for faculty reporting of academic misconduct, as well as the student's options for appeal, are outlined in detail in [USF System Regulation 3.027](#).

In our course assignments, the professor has several methods for penalizing those who engage in academic misconduct. Among these methods the professor can 1) award 0 points for an assignment on which a student has engaged in misconduct, 2) award an F in the entire course, or 3) award a special FF grade in the course. An FF appears permanently on the student's transcript as a special designation showing the student failed the course for reasons of academic misconduct. The FF includes expulsion from the University.

### **Web Posting Course Materials**

Students are reminded that posting course materials to third-party sites such as Course Hero or Chegg represents a violation of the professor's copyright on those materials and constitutes theft of intellectual property.

### **Disruption to Academic Process**

Disruptive students in the academic setting hinder the educational process. Disruption of the academic process is defined as the act, words, or general conduct of a student in a classroom or other academic environment which in the reasonable estimation of the instructor: (a) directs attention away from the academic matters at hand, such as noisy distractions, persistent, disrespectful or abusive interruption of lecture, exam, academic discussion, or general University operations, or (b) presents a danger to the health, safety, or well-being of self or other persons.

### **Student Academic Grievance Procedures**

The purpose of these procedures is to provide all undergraduate and graduate students taking courses within the University of South Florida System an opportunity for objective review of facts and events pertinent to the cause of the academic grievance. An "academic grievance" is a claim that a specific academic decision or action that affects that student's academic record or status has violated published policies and procedures or has been applied to the grievant in a manner different from that used for other students.

### **Attendance Policy**

Students are expected to exhibit professionalism through regular and on-time attendance to class lectures, whether those lectures are offered live or online. Accommodation will be made for excused absences by making arrangements with students ahead of time (when possible) or by providing a reasonable amount of time to make up missed work.

### **Group Work Policy:**

No group work is allowable according the guidance provided earlier in this document.

### **Final Examinations Policy:**

All final exams are to be scheduled in accordance with the University's final examination policy.

## **Course Policies: Technology and Media**

### **Netiquette Guidelines**

1. Act professionally in the way you communicate. Treat your instructors and peers with respect, the same way you would do in a face-to-face environment. Respect other people's ideas and be constructive when explaining your views about points you may not agree with.
2. Be sensitive. Be respectful and sensitive when sharing your ideas and opinions. There will be people in your class with different linguistic backgrounds, political and religious beliefs or other general differences.
3. Proofread and check spelling. Doing this before sending an email or posting a thread on a discussion board will allow you to make sure your message is clear and thoughtful. Avoid the use of all capital letters, it can be perceived as if you are shouting, and it is more difficult to read.
4. Keep your communications focused and stay on topic. Complete your ideas before changing the subject. By keeping the message on focus you allow the readers to easily get your idea or answers they are looking for.
5. Be clear with your message. Avoid using humor or sarcasm. Since people can't see your expressions or hear your tone of voice, meaning can be misinterpreted.

### **Email**

The primary means of communication between instructor and students between live class meetings will be email. "Blast emails" will occasionally be sent by the instructor to all students via Canvas. Students can feel free to email their instructor with questions at any time. Please anticipate a response time of 24 hours to email queries.

### **Laptop Usage**

Laptop/Tablet usage is highly encouraged in this course given the nature of the material. Students are responsible for making certain their technology is appropriate to the needs of program and is in good working order for class lectures and assignments.

### **Phone Usage:**

Students are allowed to use devices for recording lectures for their personal use, though students must still adhere to classroom behavioral expectations while recording. Students attending the in-person lectures are asked to place their mobile phones on "silent" and to step outside the classroom to take any important calls. Phones may not be used during in-class assignments.

## **Recordings**

In this class, software will be used to record live class lectures and discussions. As a student in this class, your participation in live class discussions will be recorded. These recordings will be made available only to students enrolled in the class, to assist those who cannot attend the live session or to serve as a resource for those who would like to review content that was presented. Students who prefer to participate via audio only will be allowed to disable their video camera so only audio will be captured. Please discuss this option with your instructor.

## **Canvas**

This course will be offered via USF's learning management system (LMS), Canvas. Canvas will be used in this course to disseminate materials turn in weekly assignments and return graded assignments. If you need help learning how to perform various tasks related to this course or other courses being offered in Canvas, please view the following videos or consult the Canvas help guides. You may also contact USF's IT department at (813) 974-1222 or [help@usf.edu](mailto:help@usf.edu).

## **Online Exam Proctoring**

All students must review the syllabus and the requirements, including the online terms and video testing requirements, to determine if they wish to remain in the course. Enrollment in the course is an agreement to abide by and accept all terms. Any student may elect to drop or withdraw from this course before the end of the drop/add period. Online exams and quizzes within this course may require online proctoring. Therefore, students will be required to have a webcam (USB or internal) with a microphone when taking an exam or quiz. Students understand that this remote recording device is purchased and controlled by the student and that recordings from any private residence must be done with the permission of any person residing in the residence. To avoid any concerns in this regard, students should select private spaces for the testing. Students with concerns may discuss location of an appropriate space for the recordings with their instructor or advisor. Students must ensure that any recordings do not invade any third-party privacy rights and accept all responsibility and liability for violations of any third-party privacy concerns. Students are strictly responsible for ensuring that they take all exams using a reliable computer and high-speed internet connection. Setup information will be provided prior to taking the proctored exam. To use Honorlock, students are required to download and install the [Honorlock Google Chrome extension](#). For additional information please visit the [USF online proctoring student FAQ](#) and [Honorlock student resources](#).

## **WhatsApp, GroupMe, and Student-to-Student Communication**

While students may use digital communication tools (WhatsApp, Slack, GroupMe, etc.) to communicate with fellow students, it is important to remember that academic integrity policies still apply in these environments. Informing others about the contents of tests is prohibited by [the official regulation](#), as is receiving unauthorized information about an examination. Students are expected and required to immediately report instances of such violations to the instructor.

## Course Policies: Student Expectations

### Title IX Policy

Title IX provides federal protections for discrimination based on sex, which includes discrimination based on pregnancy, sexual harassment, and interpersonal violence. In an effort to provide support and equal access, **USF has designated all faculty (TA, Adjunct, etc.) as Responsible Employees, who are required to report any disclosures of sexual harassment, sexual violence, relationship violence or stalking.** The Title IX Office makes every effort, when safe to do so, to reach out and provide resources and accommodations, and to discuss possible options for resolution. Anyone wishing to make a Title IX report or seeking accommodations may do so online, in person, via phone, or email to the Title IX Office. For information about Title IX or for a full list of resources please visit: <https://www.usf.edu/title-ix/gethelp/resources.aspx>. *If you are unsure what to do, please contact Victim Advocacy – a confidential resource that can review all your options – at 813-974-5756 or [va@admin.usf.edu](mailto:va@admin.usf.edu).*

### Course Hero / Chegg Policy

The [USF Policy on Academic Integrity](#) specifies that students may not use websites that enable cheating, such as by uploading or downloading material for this purpose. This does apply specifically to Chegg.com and CourseHero.com – almost any use of these websites (including uploading proprietary materials) constitutes a violation of the academic integrity policy.

### Professionalism Policy

Per university policy and classroom etiquette; mobile phones, iPods, etc. **must be silenced** during all classroom and lab lectures. Those not heeding this rule will be asked to leave the classroom/lab immediately so as to not disrupt the learning environment. Please arrive on time for all class meetings. Students who habitually disturb the class by talking, arriving late, etc., and have been warned may suffer a reduction in their final class grade.

### End of Semester Student Evaluations

All classes at USF make use of an online system for students to provide feedback to the University regarding the course. These surveys will be made available at the end of the semester, and the University will notify you by email when the response window opens. Your participation is highly encouraged and valued.

### Food and Drink Policy

Please adhere to the firm policy of no beverages (other than bottled/capped water), food, tobacco products, or like items in the classroom. Your understanding of the necessity for this policy and cooperation will be greatly appreciated. This policy will be strictly enforced.

### Turnitin.com

In this course, turnitin.com will be utilized. Turnitin is an automated system which instructors may use to quickly and easily compare each student's assignment with billions of web sites, as well as an enormous database of student papers that grows with each submission. Accordingly, you will be expected to submit all assignments in both hard copy and electronic format. After the assignment is processed, as instructor I receive a report from turnitin.com that states if and how another author's work was used in the assignment. For a more detailed look at this process visit <http://www.turnitin.com>. Essays are due at turnitin.com the same day as in class.

### **Disability Access**

Students with disabilities are responsible for registering with Students with Disabilities Services (SDS) to receive academic accommodations. SDS encourages students to notify instructors of accommodation requests at least 5 business days prior to needing the accommodation. A letter from SDS must accompany this request.

### **Religious Observances**

All students have a right to expect that the University will reasonably accommodate their religious observances, practices and beliefs. If you observe religious holidays, you should plan your allowed absences to include those dates.

### **Campus Free Expression**

It is fundamental to the University of South Florida's mission to support an environment where divergent ideas, theories, and philosophies can be openly exchanged and critically evaluated. Consistent with these principles, this course may involve discussion of ideas that you find uncomfortable, disagreeable, or even offensive.

In the instructional setting, ideas are intended to be presented in an objective manner and not as an endorsement of what you should personally believe. Objective means that the idea(s) presented can be tested by critical peer review and rigorous debate, and that the idea(s) is supported by credible research.

Not all ideas can be supported by objective methods or criteria. Regardless, you may decide that certain ideas are worthy of your personal belief. In this course, however, you may be asked to engage with complex ideas and to demonstrate an understanding of the ideas. Understanding an idea does not mean that you are required to believe it or agree with it.

### **Make-up Exams Policy**

If a student cannot be present for an examination for a valid reason (validity to be determined by the instructor), a make-up exam will be given only if the student has notified the instructor in advance that s/he cannot be present for the exam. Make-up exams are given at the convenience of the instructor.

### **Rewrites Policy**

Rewrites are entirely optional; however, only the formal essay may be rewritten for a revised grade. Note that an alternate grading rubric will be used for the rewrite, featuring an additional column that evaluates the changes made specifically.

### **Exams Retention Policy**

After exams are graded, the instructor will review the examination with the class and collect all exams. The exams will be retained for one semester following the current one, and then they will be destroyed.

### **Exams Retention Policy**

After exams are graded, the instructor will review the examination with the class and collect all exams. The exams will be retained for one semester following the current one, and then they will be destroyed.

### **Essay Commentary Policy**

Commentary on essays will be delivered in written format, at the end of the essay. However, upon request, an alternate delivery method can be used. If desired, instructor comments will be made verbally and delivered to the student as an mp3 through Canvas. This approach yields far fewer written comments, but much more commentary in general is delivered, due to the speed and specificity of speech. Those requesting mp3 feedback must state so when the essay is turned in.

## **Learning Support and Campus Offices**

### **Academic Accommodations**

Students with disabilities are responsible for registering with Student Accessibility Services (SAS) in order to receive academic accommodations. For additional information about academic accommodations and resources, you can visit the SAS website.

[SAS website for the Tampa and Sarasota-Manatee campuses.](#)

[SAS website for the St. Pete campus.](#)

### **Academic Support Services**

The USF Office of Student Success coordinates and promotes university-wide efforts to enhance undergraduate and graduate student success. For a comprehensive list of academic support services available to all USF students, please visit the [Office of Student Success website.](#)

### **Canvas Technical Support**

If you have technical difficulties in Canvas, you can find access to the Canvas guides and video resources in the “Canvas Help” page on the homepage of your Canvas course. You can also contact the help desk by calling 813-974-1222 in Tampa or emailing

[help@usf.edu.](mailto:help@usf.edu)

[IT website for the Tampa campus.](#)

[IT website for the St. Pete campus.](#)

[IT website for the Sarasota-Manatee campus.](#)

### **Center for Victim Advocacy**

*Example:* The [Center for Victim Advocacy](#) empowers survivors of crime, violence, or abuse by promoting the restoration of decision making, by advocating for their rights, and by offering support and resources. Contact information is available online.

### **Counseling Center**

The Counseling Center promotes the wellbeing of the campus community by providing culturally sensitive counseling, consultation, prevention, and training that enhances student academic and personal success. Contact information is available online.

[Counseling Center website for the Tampa campus.](#)

[Counseling Center website for the St. Pete campus.](#)

[Counseling Center website for the Sarasota-Manatee campus.](#)

### **Tutoring**

The Tutoring Hub offers free tutoring in several subjects to USF undergraduates. Appointments are recommended, but not required. For more information, email [asctampa@usf.edu](mailto:asctampa@usf.edu).

[Tutoring website for the Tampa campus.](#)

[Tutoring website for the St. Pete campus.](#)

[Tutoring website for the Sarasota-Manatee campus.](#)

### **Writing Studio**

The Writing Studio is a free resource for USF undergraduate and graduate students. At the Writing Studio, a trained writing consultant will work individually with you, at any point in the writing process from brainstorming to editing. Appointments are recommended, but not required. For more information or to make an appointment, email: [writingstudio@usf.edu](mailto:writingstudio@usf.edu).

[Writing studio website for the Tampa campus.](#)

[Writing studio website for the St. Pete campus.](#)

[Writing studio website for the Sarasota-Manatee campus.](#)

### **Important Dates to Remember**

For important USF dates, see the [Academic Calendar](#) at <https://www.usf.edu/registrar/calendars/index.aspx#spring2023>
